# Below Ground Waterproofing

*Knocknacarra, Co. Galway*

## Description

The below ground waterproofing of this JJ Rattigan Project in Galway was completed using the combined efforts of the Sub-Contractors under the supervision of SURFASOLOGY.

Waterproofing of the Lift Pits, Pipe penetrations and the sealing of a design joint were completed by SURFASOLOGY applicators using such products as DualProof Membrane, Quellmax Plus, Maxseal Super and Maxseal Flex.

The Formwork Contractors Connacht Ltd installed CEMflex VB Plate Waterstop in the construction joints of the below-ground reinforced concrete.

Oranmore Precast Ltd., the suppliers of the pre-cast wall sections, installed the CEMflex VB Plate in the vertical joints between the pre-cast elements.
