

Grangegorman Bus Park

Description

A new bus parking structure was constructed on the east side of the Grangegorman site to provide Dublin Bus with necessary parking space as part of preparation work for the development of the Luas Cross City Line.

SURFASOLOGY worked closely with both the main contractor (Clancy Construction) and the design team (O'Connor Sutton Cronin) offering their expertise on the structural waterproofing of roof deck.

The Drizoro Waterproofing System was used to waterproof the roof deck.
