

DESALIN AM

Product Information Page

DeSalin AM is a powerful water-based formulation used as a disinfectant and fungicide treatment against mould, algae and microorganisms suitable for areas of high humidity such as kitchens, bathrooms, swimming pools, etc., and external applications on masonry, natural stone, tiles, concrete surfaces, and painted and non-painted walls.

Specification Tip for Design Professionals:

DeSalin AM may be specified by name or by using the following description: *a water-based formulation used as a disinfectant, fungicide-preservative against mould, algae and microorganisms suitable for internal and external masonry surfaces.*

How does DeSalin AM work:

The fungicide ingredients in SurfaPore DeSalin AM breaks down and kills mould's, algae's and other microorganisms without damaging the surface.

How do I prepare the surface before applying DeSalin AM:

Dry brush the surface to remove heavy deposits of contaminants.

How do I apply DeSalin AM:

Using a soft brush apply DeSalin AM undiluted at the rate of between 8 and 10m²/ltr over the contaminated surface working the solution into a foam. After 24 hours use a soft sponge or a stiff brush to scrub the surface and rinse with copious amounts of clean water. DeSalin AM maybe used as part of a maintenance programme and may be diluted with up to 9parts clean potable water and used as an efficient cleaner and disinfectant for everyday use on tiles in bathrooms and swimming pool areas. DeSalin AM is a recommended pre-treatment for our range of SurfaPore products.

- ✓ Simple and easy to use.
- ✓ Water-based formulation. No solvents.
- ✓ Does not change original appearance of the application surface.
- ✓ Broad action spectrum against fungal spores, moulds, and microorganisms.
- ✓ Long lasting action.
- ✓ Suitable for interior and exterior use.
- ✓ Non-bleach solution. Can be used both internally and externally.
- ✓ A wide application spectrum (bathrooms and shower areas, painted and unpainted walls, cement and gypsum-based products, stones, tiles, fountains, and swimming pools)

SURFASOLOGY DESALIN AM

Product Information Page

How does DeSalin AM work:

Coverage:

Between 8 and 10m²/ltr depending on the severity of the contaminants.

What is the shelf life of DeSalin AM:

DeSalin AM has a shelf life of 24 months from the date of manufacture. DeSalin AM should be stored in the original manufacturer's sealed container in cool dry conditions and protected from frost.

Health and Safety: Suitable personal protective equipment, to include gloves and eye protection, should be worn when applying DeSalin AM. If contact with skin or eyes occurs wash the affected area with copious amounts of clean water and consult your physician if necessary.

TECHNICAL DATA:	
Appearance	Milky white coloured emulsion
Application Temperature	Plus 5°C
Coverage (surface applied)	6-8m ² per litre (depending upon the porosity of the surface)
Boling point / Flash Point	>100°C
Density	0.98g/cm ³
pH Value	8.8
Storage Conditions	Protect from frost
Shelf Life	2 years from manufacture date

Protect the environment: Dispose of waste in accordance with the local authority regulations.

SURFASOLOGY

Smart Surface Solutions

Waterproofing and Damp Proofing Specialists

WHO WE ARE

SURFASOLOGY, formerly IBC Ltd., is Ireland's leading waterproofing and damp proofing specialist that has been proudly providing market leading, innovative, and sustainable construction solutions since 1976.

Our high-quality products and systems are accompanied by our professional technical support and a full installation service. **SURFASOLOGY** technical consultancy team have unrivalled experience in major construction projects, as well as solving everyday problems for homeowners, with long term trustworthy solutions.

Our products are all manufactured in ISO Quality System compliant facilities and meet the relevant local, National, & European standards. **SURFASOLOGY** network members manufacture products exclusively in Germany, Switzerland, Spain, Greece and the UK. We support these products in local markets with highly-qualified technical professionals, who understand both on-site demands and the design detail. We work in a collaborative way with our clients at all stages of the project to ensure that the correct design, preparation, and application are carried out to ensure a timely and successful outcome for all stakeholders.

Get in touch with us today!

**INNOVATIVE, WORLD-CLASS,
SUSTAINABLE CONSTRUCTION
SOLUTIONS, POWERED BY OUR
EXTENSIVE EXPERIENCE AND
EXPERTISE.**

AREAS OF EXPERTISE

Structural Waterproofing

Our world class solutions encompass the whole building envelope both above and below ground.

Damp Proofing & Remedial

A comprehensive range of first class damp proofing and timber treatment solutions.

Specialist Screeds & Coatings

High quality floor finish on domestic, commercial, under-floor heating or industrial projects.

Concrete Repair

We offer a highly efficient selection of products for the repair and protection of concrete elements.

WHAT WE DO

Material Supply

Reliable and sustainable surface solutions accompanied by unrivalled technical support.

Installation Service

Specialised installation service provided by our approved contractors delivering high quality workmanship you can trust.

Technical Support

Extensive experience and expertise in Project Design and Technical Support Services ensuring reliable outcomes for all our clients.

CPD Seminars

RIAI and RIBA approved CPD Seminars to specifiers on a variety of topics covering structural waterproofing and damp proofing.
