

STORMDRY

Product Information Page

Stormdry is an opaque coloured, silane/siloxane water-repellent cream, which dries clear. Stormdry is designed for application on vertical surfaces constructed of brick, mortar or stone.

Specification Tip for Design Professionals:

Stormdry may be specified by name or by using the following description: *a propriety silane /siloxane water-repellent cream which dries clear, it is designed for application on vertical surfaces constructed of brick, mortar or stone.*

- ✓ Easy to apply
- ✓ Single coat application – saves time
- ✓ Reduces heat loss
- ✓ Protects surfaces from frost damage
- ✓ Long life expectancy (20-30 years)
- ✓ Does not block the pores - allows substrate to “breathe naturally”
- ✓ Deeply penetrating – improves the effectiveness of the treatment by bridging small cracks and extends the life of the treatment
- ✓ UV and alkali resistant
- ✓ Approved by several independent tests (tested to BS EN ISO 15148:2002)
- ✓ Manufactured under an ISO 9001/14001 quality and environmental management system.

How does Stormdry work:

Stormdry lines the pores of the surface and repels water away from the surface.

How do I prepare the surface before applying Stormdry:

Surfaces onto which Stormdry is to be applied should be free from cracks that are larger than 0.3mm. Loose or damaged pointing should be repaired using StormDry Repointing Additive.

The complete surface area should be treated with SURFASCLEAN Fungicidal Wash Concentrate: washed with clean potable water and allowed to fully dry.

How do I apply Stormdry:

Stormdry may be applied by soft brush, roller, or low pressure sprayer at the rate of 5m² per litre. Surfaces treated with Stormdry should be protected from rain for 24 hours after application. Stormdry should not be applied if temperatures are 5°C or below or are expected to fall below 5°C in the following 24 hours.

Note: Stormdry should not be applied over sealed or painted surfaces and is intended for above-ground use only. Stormdry is suitable for most types of cement surfaces, brick, grouts and natural or artificial stones (excluding limestone). A small sample test area of all surfaces should be completed to ensure suitability of the product.

How do I store Stormdry:

Stormdry is a water-based, non-hazard material, it should be stored in cool dry conditions and protected from frost. Product should be stored in the original manufacturer's sealed container.

What tests have been carried out:

Stormdry is BBA Certified (Certificate Number 15/5198) Stormdry is tested to BS EN ISO 15148:2002. Independent tests from Giraffe Innovation and University of Portsmouth are also available. Packaging: 5L units.

Protect the environment: Dispose of waste in accordance with the local authority regulations.

Smart Surface Solutions

Waterproofing and Damp Proofing Specialists

WHO WE ARE

SURFASOLOGY, formerly IBC Ltd., is Ireland's leading waterproofing and damp proofing specialist that has been proudly providing market leading, innovative, and sustainable construction solutions since 1976.

Our high-quality products and systems are accompanied by our professional technical support and a full installation service. **SURFASOLOGY** technical consultancy team have unrivalled experience in major construction projects, as well as solving everyday problems for homeowners, with long term trustworthy solutions.

Our products are all manufactured in ISO Quality System compliant facilities and meet the relevant local, National, & European standards. **SURFASOLOGY** network members manufacture products exclusively in Germany, Switzerland, Spain, Greece and the UK. We support these products in local markets with highly-qualified technical professionals, who understand both on-site demands and the design detail. We work in a collaborative way with our clients at all stages of the project to ensure that the correct design, preparation, and application are carried out to ensure a timely and successful outcome for all stakeholders.

Get in touch with us today!

**INNOVATIVE, WORLD-CLASS,
SUSTAINABLE CONSTRUCTION
SOLUTIONS, POWERED BY OUR
EXTENSIVE EXPERIENCE AND
EXPERTISE.**

AREAS OF EXPERTISE

Structural Waterproofing

Our world class solutions encompass the whole building envelope both above and below ground.

Damp Proofing & Remedial

A comprehensive range of first class damp proofing and timber treatment solutions.

Specialist Screeds & Coatings

High quality floor finish on domestic, commercial, under-floor heating or industrial projects.

Concrete Repair

We offer a highly efficient selection of products for the repair and protection of concrete elements.

WHAT WE DO

Material Supply

Reliable and sustainable surface solutions accompanied by unrivalled technical support.

Installation Service

Specialised installation service provided by our approved contractors delivering high quality workmanship you can trust.

Technical Support

Extensive experience and expertise in Project Design and Technical Support Services ensuring reliable outcomes for all our clients.

CPD Seminars

RIAI and RIBA approved CPD Seminars to specifiers on a variety of topics covering structural waterproofing and damp proofing.
