## SURFAPORE M

Product Information Page

SurfaPore M is a water-based formulation for sealing and protecting porous marble, granite and stone surfaces from oil, water and dirt-stains.

### Specification Tip for Design Professionals:

SurfaPore M may be specified by name or by using the following description: *a propriety water based emulsion for sealing and protecting porous marble, granite and stone surfaces from oil, water and dirt-stains.*

### How does SurfaPore M work:

The unique formulation of SurfaPore M which consists of very fine particles allowing the solution to penetrate deep into the substrate, clinging to the sides of the pores and repels liquids such as oils and water thus preventing staining of the surface.

### How do I prepare the surface before applying SurfaPore M:

The surface must be clean and dry and free from any contaminants.

### How do I apply SurfaPore M:

SurfaPore M can be applied by brush, roller, or sprayer at the rate of one litre per 12-18m<sup>2</sup> depending on the porosity of the surface. Allow the solution to work on the surface for approximately 15 minutes, remove any excess solution from the surface before it dries with a damp cloth and polish the surface using a clean-soft cloth. For extra protection or for sensitive surfaces, re-apply as above within 3 hours. Protect the treated surfaces until fully cured (7 days).

**Note:** A small sample test area of all surfaces should be completed to ensure suitability of the product.

### How do I store SurfaPore M:

SurfaPore M is a water-based, non-hazard material. Product should be stored in the original manufacturer's sealed container in cool dry conditions and protected from frost.

- ✓ Simple and easy to use
- ✓ Environmentally friendly and non-hazardous
- ✓ Suitable for vertical and horizontal applications
- ✓ Allows the surface to breathe
- ✓ Resists temperatures of up to 350°C
- ✓ Dries clear

TECHNICAL DATA:	
Appearance	Milky white coloured emulsion(that dries clear)
Application Temperature	Plus 5°C
Coverage (surface applied)	12-18m <sup>2</sup> per litre (depending upon the porosity of the surface)
Boling point / Flash Point	>100°C
Density	0.98g.cm <sup>3</sup>
pH Value	6
Storage Conditions	Protect from frost
Shelf Life	2 years from manufacture date

**Protect the environment: Dispose of waste in accordance with the local authority regulations.**

**Disclaimer:** The general information provided in the present technical description, application guidelines and other recommendations, is based on research and experience. However, the client is obliged to determine themselves what products are suitable for use. Accordingly, no liability will be accepted by IBC Limited t/a SURFASOLOGY™.

## Smart Surface Solutions

Waterproofing and Damp Proofing Specialists

## WHO WE ARE

**SURFASOLOGY**, formerly IBC Ltd., is Ireland's leading waterproofing and damp proofing specialist that has been proudly providing market leading, innovative, and sustainable construction solutions since 1976.

Our high-quality products and systems are accompanied by our professional technical support and a full installation service. **SURFASOLOGY** technical consultancy team have unrivalled experience in major construction projects, as well as solving everyday problems for homeowners, with long term trustworthy solutions.

Our products are all manufactured in ISO Quality System compliant facilities and meet the relevant local, National, & European standards. **SURFASOLOGY** network members manufacture products exclusively in Germany, Switzerland, Spain, Greece and the UK. We support these products in local markets with highly-qualified technical professionals, who understand both on-site demands and the design detail. We work in a collaborative way with our clients at all stages of the project to ensure that the correct design, preparation, and application are carried out to ensure a timely and successful outcome for all stakeholders.

**Get in touch with us today!**

**INNOVATIVE, WORLD-CLASS,  
SUSTAINABLE CONSTRUCTION  
SOLUTIONS, POWERED BY OUR  
EXTENSIVE EXPERIENCE AND  
EXPERTISE.**

## AREAS OF EXPERTISE

### Structural Waterproofing

Our world class solutions encompass the whole building envelope both above and below ground.

### Damp Proofing & Remedial

A comprehensive range of first class damp proofing and timber treatment solutions.

### Specialist Screeds & Coatings

High quality floor finish on domestic, commercial, under-floor heating or industrial projects.

### Concrete Repair

We offer a highly efficient selection of products for the repair and protection of concrete elements.

## WHAT WE DO

### Material Supply

Reliable and sustainable surface solutions accompanied by unrivalled technical support.

### Installation Service

Specialised installation service provided by our approved contractors delivering high quality workmanship you can trust.

### Technical Support

Extensive experience and expertise in Project Design and Technical Support Services ensuring reliable outcomes for all our clients.

### CPD Seminars

RIAI and RIBA approved CPD Seminars to specifiers on a variety of topics covering structural waterproofing and damp proofing.
