

TERMINATION RAIL

Product Information Page

Termination Rail is a specially moulded PVC strip which is used to provide protection over the termination area of Waterproof Membranes.

Specification Tip for Design Professionals:

Termination Rail may be specified by name or by using the following description: *a propriety PVC strip which is used to provide protection over the termination area of Waterproof Membranes.*

How does Termination Rail work:

Termination Rail is supplied in sections that are 2 metres in length and has an overall height of 70mm. The sections are moulded to provide a 10mm flat fixing surface at the top with the bottom 60mm tapered out 10mm. A series of pre-drilled holes are located along the top of the Rail.

How do I prepare the Membrane prior to the application of the Termination Rail:

- The Waterproof Membrane should be placed against the wall in a straight line and fixed securely with DualProof Fixings placed at 30cm centres.
- The Termination Rail should be placed over the membrane so that the flat surface is against the wall.
- The Termination Rail may be fixed to the wall using MS Polymer or may be fixed using DualProof Fixings placed at 50cm centres.
- DualProof Fixings are a 5mm x 35mm fixing that is inserted into a pre-drilled 4mm x 30mm hole.

For further information contact the SURFASOLOGY™ Technical Department.

Protect the environment: Dispose of waste in accordance with the local authority regulations.

Disclaimer: The general information provided in the present technical description, application guidelines and other recommendations, is based on research and experience. However, the client is obliged to determine themselves what products are suitable for use. Accordingly, no liability will be accepted by IBC Limited t/a SURFASOLOGY™.

Smart Surface Solutions

Waterproofing and Damp Proofing Specialists

WHO WE ARE

SURFASOLOGY, formerly IBC Ltd., is Ireland's leading waterproofing and damp proofing specialist that has been proudly providing market leading, innovative, and sustainable construction solutions since 1976.

Our high-quality products and systems are accompanied by our professional technical support and a full installation service. **SURFASOLOGY** technical consultancy team have unrivalled experience in major construction projects, as well as solving everyday problems for homeowners, with long term trustworthy solutions.

Our products are all manufactured in ISO Quality System compliant facilities and meet the relevant local, National, & European standards. **SURFASOLOGY** network members manufacture products exclusively in Germany, Switzerland, Spain, Greece and the UK. We support these products in local markets with highly-qualified technical professionals, who understand both on-site demands and the design detail. We work in a collaborative way with our clients at all stages of the project to ensure that the correct design, preparation, and application are carried out to ensure a timely and successful outcome for all stakeholders.

Get in touch with us today!

**INNOVATIVE, WORLD-CLASS,
SUSTAINABLE CONSTRUCTION
SOLUTIONS, POWERED BY OUR
EXTENSIVE EXPERIENCE AND
EXPERTISE.**

AREAS OF EXPERTISE

Structural Waterproofing

Our world class solutions encompass the whole building envelope both above and below ground.

Damp Proofing & Remedial

A comprehensive range of first class damp proofing and timber treatment solutions.

Specialist Screeds & Coatings

High quality floor finish on domestic, commercial, under-floor heating or industrial projects.

Concrete Repair

We offer a highly efficient selection of products for the repair and protection of concrete elements.

WHAT WE DO

Material Supply

Reliable and sustainable surface solutions accompanied by unrivalled technical support.

Installation Service

Specialised installation service provided by our approved contractors delivering high quality workmanship you can trust.

Technical Support

Extensive experience and expertise in Project Design and Technical Support Services ensuring reliable outcomes for all our clients.

CPD Seminars

RIAI and RIBA approved CPD Seminars to specifiers on a variety of topics covering structural waterproofing and damp proofing.
